

Description:

The intent of the *Dodge County, WI COVID-19 Weekly Report* is to turn real data tracked into a visible format for the community to stay informed on the current status, past trends and trajectory of COVID-19 infection in Dodge County, WI to aide in virus mitigation decision making.

The data shown in this report are subject to change. We strive for transparency and accuracy in our data, and as individual cases are investigated by public health, there may be corrections to the status and details of cases that result in changes to this information. Some examples of corrections or updates that may lead to changes to our data, such as case and negative counts and deaths going up or down, include:

- Update or correction of case's address, resulting in a change to their location of residence to another county or state,
- Correction to laboratory result,
- Correction to a case's status from confirmed to unconfirmed (for example, if they were marked as confirmed because a blood test detecting antibodies was positive instead of a test detecting the virus causing COVID-19),
- De-duplication or merging and consolidation of case records,
- Update of case's demographic information from missing or unknown to complete information.

COVID-19 Vaccine Distribution Plan

Dodge County Public Health

1A

Healthcare workers &
Long-term Care Residents

Includes individuals who provide direct patient care or engage in activities that place them in direct contact with infected persons or material.

1B
partial

Police & fire personnel
Correctional Staff
Adults ages 65 and older

Law enforcement officers, fire, Correctional facility personnel, Probation and parole officers, DNR wardens

1B
Full

Other Public Facing
Essential Workers

This definition is determined by WI Department of Health Services and includes: Educators & Child Care, Individuals enrolled in Medicaid Long-term Care programs, some public-facing essential workers, non-frontline essential healthcare personnel, congregate living facility staff & residents.

1C

Individuals with
Underlying Health
Conditions

Includes individuals who are considered high risk for severe illness based on age and/or health history.

2

Remainder of Phase 1,
Critical Populations &
General Population

An announcement will be made when vaccine supplies reach a point when providers can begin taking appointments and administering COVID-19 vaccine to community members.

3

Remainder of Phase 1,
Critical Populations &
General Population

Vaccine distribution will be widespread and incorporated into preventative care.

How Vaccine Allocation Works:

The Wisconsin Department of Health Services determines who is eligible to receive the COVID-19 vaccine. Dodge County Public Health and other registered vaccinators cannot vaccinate specific groups until approved by the State of Wisconsin Department of Health Services.

DCPH requests # of doses each Tuesday (increments of 100) from the state for the following week. We find out Friday or Saturday how many will be allocated to us.

We expect to see fewer people vaccinated in the beginning, as supplies of the vaccine will be limited. As more COVID-19 vaccine becomes available, we will see an increase in the number of individuals vaccinated

Currently Eligible Populations

- Frontline health care personnel
- Residents in skilled nursing and long-term care facilities
- Police and fire personnel, correctional staff.
- Adults ages 65 and over (starting January 25)

Future Eligible Populations

1B Groups **tentatively** eligible beginning March 1st in priority order:

- Education and Child Care
- Individuals enrolled in Medicaid Long-Term Care programs
- Public-facing essential workers
- Non-frontline health care personnel
- Congregate Living

SDMAC (State Disaster Medical Advisory Committee) has made recommendations for Phase 1B priority populations that DHS has accepted:

Priority Group 1B

COVID-19
Vaccine FAQs

Dodge County Public Health Vaccine Waitlist:

Dodge County Public Health COVID-19 Vaccine Scheduling Procedure

Dodge County Public Health
Henry Dodge Office Building
159 County Rd. DF
Juneau, WI 53039

Step 1:

Am I eligible right now?

- Frontline Healthcare Personnel (definition)
- Police, Fire & Correctional personnel
- Adults ages 65 + (starting January 25)

- Education and Child Care
- Individuals enrolled in Medicaid Long-Term Care programs
- Public-facing essential workers
- Non-frontline health care personnel
- Congregate Living
- I do not fit in any of the above listed categories.

Priority Group 1B List

There is not currently a waitlist for these populations.
Tentatively eligible 3/1/21

Step 2:

Sign up online or call hotline:

Online:

Frontline Healthcare complete:

[Interest Form 1A](#)

Police, Fire, Correctional, 65+ complete:

[Interest Form 1B](#)

Or Call:

920-386-4830

Automated Answering Service; please provide:

- First and last name
- Call back number
- County of Residence
- Eligibility group

Step 3:

Wait to be contacted by DCPH staff to set up an appointment:

- Please only use the online forms or the hotline in "Step 2" to sign-up.
- Please do not call more than once or submit more than one interest form.
- All submissions are added to a waitlist until there is available vaccine supply and open appointment times.

For additional information on the vaccine, visit the [Wisconsin DHS website](#).

2/1/21 Waitlist Update:

1B Waitlist Closed

Due to the supply and demand of COVID-19 vaccine, our waitlist is at capacity. DCPH will **not be accepting** anymore 1B requests or interest forms until further notice.

- If you are currently on the waitlist, as vaccine becomes available, you can expect a call from us in the next 6 weeks.
- We will be calling people in the order in which requests were submitted.
- Hospitals are also requesting vaccine so check with your healthcare provider about scheduling.
- Once we get through the current waitlist, we will open it back up.

Moderna Vaccine Fact Sheet

Pfizer Bio-Ntech Vaccine Fact Sheet

CDC V-safe After Vaccination Health Checker

V-safe is a smartphone-based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccine. Through **v-safe**, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine. Depending on your answers, someone from CDC may call to check on you and get more information.

Additional Updates:

EXECUTIVE ORDER #105:

2/4/21: Gov. Tony Evers signed Executive Order #105 and Emergency Order #1 establishing a statewide public health emergency and requiring face coverings in public places to protect the health and safety of Wisconsinites.

BEAVER DAM TEST SITE EXPANDS AGE LIMIT:

Starting February 8, all WING-supported testing sites will be able to test children **12 months or older**. This includes our DCPH Beaver Dam testing site at 1701 N. Spring Street. In order to ensure everyone remains safe, WING service members will make a reasonable attempt to test the child, but will not perform or complete the specimen collection if there is risk of injury or extreme discomfort for either the child or service member.

Johnson and Johnson Submitted an Application for EUA:

On Friday, February 5th, Janssen Biotech Inc., a division of Johnson and Johnson, submitted an emergency use authorization (EUA) application for a COVID-19 vaccine. The Food and Drug Administration (FDA) is reviewing the application, and will make recommendations to the Commissioner of Food and Drugs on the authorization of the Janssen product after careful review and public deliberation through the Vaccines and Related Biological Products Advisory Committee (VRBPAC). The FDA has scheduled a VRBPAC meeting to discuss this product for February 26, 2021.

Test Site Reminder:

Please remember, the BD test site is closed Monday, Feb. 15, for President's Day.

Statistics are calculated using total confirmed Community cases

Age Range of Confirmed PCR & Antigen test COVID-19 Individuals

% ever HOSPITALIZED

● HOSPITALIZED
● NOT HOSPITALIZED

Weekly % HOSPITALIZED

● HOSPITALIZED
● NOT HOSPITALIZED

"Hospitalized" means the person needed to be admitted to the hospital for medical care at some point in their illness. This does not include someone that was only seen in urgent care or the emergency department. The length of admission varies among cases: *at least one night or up to a month or longer.*

Less than 1% of those cases were put on mechanical ventilation to assist with breathing.

11 patients with COVID-19 were admitted to the hospital this week because of their symptoms. Does not include DOC cases.

148 cases are actively isolating at their homes and receive daily monitoring calls from Public Health staff. **Down 117 cases from last week.**

8,639 cases are recovered: it has been 10 days since symptoms first appeared and they have been symptom-free for 24 hrs. **Up 189 cases from last week.**

174 cases are deceased from the virus. **Up 6 confirmed cases and 3 probable cases from last week.** (*6 of the total deaths are from the Department of Corrections)

RECOVERY STATUS

● ACTIVE CASES- 1.7% ● RECOVERED- 96.6%
● DECEASED- 1.7%

Counting deaths among COVID-19 cases in Dodge County:

DHS COVID-19 Deaths

- ✓ 1. Deaths must be reported by health care providers, medical examiners/coroners, and recorded by local health departments in order to be counted.
- ✓ 2. The medical examiner in the county of the death reviews all pertinent medical records and tests to determine the cause of death.
- ✓ 3. COVID-19 must be listed as a "cause of death" or "other significant condition" in order for it to be considered a COVID death
- ✓ 4. A death is counted in statistics once the death certificate is finalized and received by Dodge County Public Health..

COVID-19 Deaths by Age and Gender

Medical care received:

Hospitalized	94
Any Intensive Care	21
Intubated	15
Not Hospitalized	34
Unknown Hospitalization Status	37

Source: Public Health Analysis Visualization and Reporting (PHAVER) web portal.

Death by Setting

COVID Deaths per Month

*Probable

Deaths among probable cases are those that meet one of the following criteria:

1. A probable case of COVID-19 is reported to have died from causes related to COVID-19.
2. A death certificate that lists COVID-19 disease or SARS-CoV-2 as an underlying cause of death or a significant condition contributing to death is reported to DHS but WEDSS has no record of confirmatory laboratory evidence for SARS-CoV-2.

TOTAL TESTS

77

POSITIVE TESTS

383

NEGATIVE TESTS

16.74%

% Pos Weekly Avg

14-Day % Positive Rate By Person

Of Concern

Proceed with Caution

Good

Line Key

% Positive Rate by Person

Daily % Positive Rate by Person

7 Day Average % Positive Rate by Person

Goal:

- <5%
- downward trajectory

Calculations:

1) % Positive Rate By Person = Total Positive Tests ÷ Total Positive and Negative Labs

*aka. "Rolling average" - more accurate

2) Daily % Positive rate By Person = # Positive labs in last 24 hrs ÷ total labs resulted in last 24 hrs

*fluctuations occur more frequently based on how long different labs take to produce test results and the LPHD's resources to manually log positive results.

3) 7-day average = Total Positive tests from the week ÷ total tests from the week

*to smooth out any day-to-day fluctuations and track overall trends

Rolling % Positive Rate By Person Trajectory

Of Concern

Proceed with Caution

Good

The percent positive is exactly what it sounds like: the percentage of all coronavirus tests performed per person that are actually positive, or: $(\text{positive cases}) / (\text{total positive} + \text{negative persons}) \times 100\%$. Percent positive by person only includes each person once across the duration of the pandemic. The percent positive (sometimes called the "percent positive rate" or "positivity rate") helps public health officials answer questions such as:

- What is the current level of SARS-CoV-2 (coronavirus) transmission in the community?
- Are we doing enough testing for the amount of people who are getting infected?

Weekly Positive & Negative Lab Results

16.74% of people tested this week for COVID-19 were positive. Decreased ~5.3% since last week.

Cumulative Testing Data

Week 1: March 1-7	Week 13: May 24-30	Week 25: Aug 16-23	Week 37: Nov 9-15	Week 49: Feb 1-7

Week 12: May 17-23	Week 24: Aug 9-15	Week 36: Nov 2-8	Week 48: Jan 25-31	

Introduction:

The Harvard Global Health Institute and Harvard’s Edmond J. Safra Center for Ethics have been working with a network of research and policy organizations to achieve convergence around recommendations for core metrics to be used to evaluate the status of COVID response and key performance indicators to evaluate how well particular tools of response are being deployed. Putting it in a rate per 100,000 population allows you to compare it to other counties with varying populations.

Purpose: A unified approach for suppressing COVID-19 with common metrics to help anticipate and get ahead of the virus rather than reacting to uncontrolled community spread.

COVID Risk Level Map:

Risk Level: GREEN	Risk Level: YELLOW	Risk Level: ORANGE	Risk Level: RED
Less than ONE case PER 100,000 People	1-9 cases PER 100,000 People	10-24 cases PER 100,000 People	25+ cases PER 100,000 People
On track for containment	Community Spread	Accelerated Spread	Tipping point
Monitor with viral testing and contact tracing program	Rigorous test and trace programs advised	Stay-at-home orders and/or rigorous test and trace programs advised	Stay-at-home orders necessary

The rate of positive cases per 100,000 population is based on community positive cases only using a 2020 preliminary population for Dodge County of 90,005. No department of corrections positive cases are factored into this model as we feel they do not accurately represent the community spread of the virus in Dodge County.

Harvard Model: Is reported as a 7 day average

February 1-7 , 2021

DODGE COUNTY SAFE RESTART

WHAT IS IT?: A measured, phased-in approach that utilizes data-driven benchmark criteria and aligns with federal and state metrics has been developed to guide Dodge County decision making.

Effective September 18, Dodge County will transition back to *Phase ONE* of the Dodge County Safe Restart:

READ THE FULL PLAN: Visit our website under the "Coronavirus Information" > Dodge County Safe Restart tab and click the link: "[Dodge County Safe Restart Guidelines and Recommendations for Action](#)" to read the full plan.

Weekly Benchmark Criteria Scorecard: Updated 02/05/2021

 Dodge County Benchmark Scorecard Phase Recommendation: ONE		
Indicator	Metric	Status
Cases	Downward trajectory of positive cases of COVID-19 as a percentage of total tests.	
Testing	Testing availability for all residents with COVID-like symptoms, with priority toward vulnerable populations.	
Care	Hospitals have ability to treat all patients requiring hospitalization without resorting to crisis standards.	
PPE	Adequate PPE available to healthcare personnel.	
Tracing	Every resident who tests positive for COVID-19 is interviewed within 24 hours of test results. COVID positive contacts are interviewed within 48 hours of test results.	
<div><div>Excellent</div><div>Proceed with Caution</div><div>Of Concern</div></div> <p>Updated by Dodge County Public Health Unit</p>		

Public Recommendations Under :

- Businesses should continue using the general best practice guidelines from the Wisconsin Economic Development Corporation (WEDC) and any sector-specific recommendations that apply to the work being done. If your sector is not included the CDC has additional resources for sectors/organizations to reference.
- Limit capacity within non-essential businesses, bars, restaurants, and organizations to **25% or less**.
- Events held outdoors should allow for all people to maintain 6 feet physical distance (36 square feet per person) from others.
- People age 65 or older and those who are medically vulnerable should continue to limit travel and remain at home as much as possible.
- Support online education/remote work options as able.
- Encourage curbside pick-up to reduce in-store traffic and long lines.
- If community members choose to gather socially, private indoor social gatherings should be limited to **10 people or less** with physical distancing.
- Encourage masking for both staff and consumers.

Should I get tested?

Anyone with symptoms of COVID-19 or who has been exposed to COVID-19 should get tested.

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If you think you need to get tested:

- Contact your doctor to ask if your primary health care clinic is providing testing.
- Find a local community testing site. Testing at these sites are provided at no cost. Some locations may require a doctor's note or appointment to receive a test.

Where to find community COVID-19

To find a testing site near you click [here](#)

Ongoing Community Sites Near Dodge County:

Important Update for Beaver Dam Test Site:

Starting February 8, all WING-supported testing sites will be able to test children 12 months or older.
